

Dear Sir or Madam,

I am pleased to inform you about the creation of the National Centre on Hydrogen and Fuel Cell Technology Experimentation (www.cnethpc.es) in Spain. It is a new Scientific Research & Technology Development Spanish Facility, devoted to scientific and technology research in all the fields related to hydrogen and fuel cell technologies, being at the service of the national research and technology community and open to international access and collaboration. The Centre has been created as a Consortium of the Spanish Ministry for Education and Science and the Castilla-La Mancha Regional Government, as part of the implementation of the Spanish Roadmap of Scientific and Technological Facilities.

The CNETHPC has opened a call for applications to Director position. Attached I send you more information.

I would be so grateful if you could inform me about the way to include the information of the CNETHPC in your Newsletter and at your website in order to inform all your members about this new facility.

Looking forward to hearing from you soon.

Best regards,

Maria Jaen
